

## **SENSE AND SENSIBILITY CONFERENCE**

**Brian Gerrish**

Brian Gerrish is a former Royal Navy Officer and founder of the UK Column News in 2006. Aiming to “highlight the rise of a dangerous political dictatorship”, UK Column was originally a small newsletter but has grown into a website that produces a regular stream of articles, video content and occasional offline meetings. The site received a considerable boost during the COVID-19 pandemic, and remains a significant voice in the UK conspiracy theorist alternative media. It retains a presence on most major social media platforms.

Alongside his continuing work to highlight the rise of dangerous political dictatorship within the UK, Brian has also remained focused on working to expose UK state sponsored child abuse and trafficking.
